

MICHIGAN DEPARTMENT OF COMMUNITY HEALTH
CHEMICAL TERRORISM AND EMERGENCIES UNIT
1-800-648-6942 (MI-TOXIC)

“Tools You Can Use” Resource List

⇒ Information Resources

◆ Threat-Specific Info

<http://www.bt.cdc.gov> - CDC web site – See “Agents, Diseases and Other Threats.”

<http://www.atsdr.cdc.gov> - ATSDR web site – See “Quick Links” for toxicological profiles and ToxFAQs (“public fact sheets”). See “Emergency Response” for Managing Hazardous Materials Incidents and Medical Management Guidelines (“healthcare professional fact sheets”).

<http://www.emedicine.com/emerg/index.shtml> - EMedicine web site - See “Warfare - Chemical, Biological, Radiological, Nuclear And Explosives” and/or “Toxicology” link for chemical-specific info.

<http://www.cdc.gov/niosh/ipcs/nicstart.html> - NIOSH web site - United States National version of the “International Chemical Safety Cards” (“worker fact sheets”).

<http://ershdb.consolidatedsafety.com/> - NIOSH web site – See agent-related links for “Emergency Response Cards” (“worker fact sheets”).

<http://hazard.com/msds> - Safety Information Resources, Inc. web site – Large database containing “materials safety data sheets.”

<http://www.state.nj.us/health/eoh/rtkweb/rtkhsfs.htm> - State of New Jersey web site – Large comprehensive list of “hazardous materials” fact sheets.

◆ Planning Resources

<http://www.fema.gov/onp/toolkit.shtm> - FEMA web site - Online version of the “FEMA Tool Kit for Managing the Emergency Consequences of Terrorist Incidents.”

<http://www.ojp.usdoj.gov/odp/welcome.html> - Department of Homeland Security’s “Office of Domestic Preparedness” web site. See links for training, exercise, lessons learned, and library.

<http://www.bt.cdc.gov/planning/responseguide.asp> - CDC web site - Online version of the “Public Health Emergency Response Guide for State, Local, and Tribal Public Health Directors.”

<http://ehopac.org/EHOREadinessGuide-final.pdf> - Online version of the “Environmental Health Readiness Guide.”

<https://michiganhan.org/btrs/Documents/State%20of%20Michigan%20Agencies/Department%20of%20Community%20Health/Chemical%20Terrorism%20Unit/> - Michigan Health Alert Network web site – See the CTE Unit’s folder on the MI-HAN for a wealth of useful planning and chemical-specific information resources. **This site is password-protected and you must have a MI-HAN account to access these resources. Information can be provided to those without an account by calling the “1-800” number listed above or by sending email to Sue Manente: manentes@michigan.gov**

⇒ Tools You Can Use

◆ State Tools

Lists of Key Contacts (state/federal; work day/emergency) can be found in the CTE folder of MI-HAN, listed above under “Planning Resources.” *“Fact Sheet Matrix,” fact sheet templates, and existing versions of MDCH-authored chemical-specific fact sheets* can be obtained in the CTE folder of MI-HAN, see “Chemical Fact Sheets, Templates, and Info Sources.”

Epidemiological Investigation forms and database for chemical releases can be obtained in the CTE folder of MI-HAN, see “Chemical Epi Surveillance.”

All these resources are password-protected.

<http://www.michigan.gov/mdch-toxics/> - State of Michigan (Department of Community Health/Division of Environmental and Occupational Epidemiology) web site – See “Chemical Terrorism and Chemical Emergencies” for the online version of the “Chemical Source Matrix.” See “Toxic Substances Information Directory” for online “hot-linked” version of our information directory.

The Michigan Toxicological Emergency Resource (MiTER) is *not yet available online*. The CTE Unit and the Office of Public Health Preparedness are collaborating to create a version that can easily be shared with our partners via the Internet. “Version 1” is expected to be released during the winter of 2006.

<http://mi.train.org> - MI-TRAIN web site – Our “Facilitator’s Guide to Foodborne Illness Tabletop” is found on this site, which **also requires an account to access**. Perform a “Course Search” using the terms “foodborne illness tabletop” to access this resource once you are logged on to the MI-TRAIN site.

http://www.michigan.gov/documents/2006_catalog_pg1-28-w-cov_7-28_135092_7.pdf - State of Michigan (State Police Emergency Management Division) web site – See the link given above to access the 2006 training catalog for the Michigan Hazardous Materials Training Center, located in Lansing, MI. For more information and to register for course, contact the center at phone (517) 322-1190 or fax (517) 322-6442.

Organization of online state tools is an ongoing and iterative process. To better manage quick access and timely delivery of the availability of new products, we encourage our partners to:

- Create a “Subscription” for the CTE folder of MI-HAN. You will be notified every time something is updated and/or added to our folder.
- Bookmark the CTE web page link found at <http://www.michigan.gov/mdch-toxics> and periodically check back for the availability of new links and/or products.

◆ Federal Tools

<http://wiser.nlm.nih.gov/index.html> - National Library of Medicine web site – Download the free “Wireless Information System for Emergency Responders” (WISER) for Windows or Palm operating systems at this site.

<http://www.epa.gov/ceppo/cameo/index.htm> - EPA web site - Access a wealth of information regarding CAMEO (“Computer-Aided Mgmt of Emergency Operations”) at this site.

<http://response.restoration.noaa.gov/chemaids/react.html> - National Oceanic and Atmospheric Administration web site – Download the “Chemical Reactivity Worksheet” at this site.

<http://yosemite.epa.gov/oswer/ceppoweb.nsf/content/rmp-comp.htm> - EPA web site - Download “RMP*Comp” at this site, as well as other information related to EPA’s Risk Management Program. **Data collected through EPA/RMP is no longer freely available online. Written request must be made directly to EPA by a government agency for this data.**

Looking for an expert to deliver a customized and informative lecture regarding chemicals, planning for chemical releases, etc???

Look no further – the “CTE Speakers Bureau” is here!!!

Call the “1-800” number or contact Martha Stanbury at stanburym@michigan.gov to discuss your needs and schedule your lecture.
