

## Laboratory Aspects of Bioterrorism Course Instructors

**Gillian Stoltman, PhD, MPH** is lead faculty for this training program and a consultant in epidemiology and infectious disease control. She earned her PhD in Viral Pathology at the University of London (UK) and MPH at the University of Michigan School of Public Health. She formerly served as Director of the Division of Communicable Disease and Immunization at the Michigan Department of Community Health. Prior to her work at the state health department, she was director of Community Health at the Kalamazoo County Human Services Department. Dr. Stoltman has also conducted research in neurovirology and retroviruses in the United Kingdom.

**Valerie Reed M(ASCP), RM(ASM)** is Laboratory Coordinator for the Bioterrorism Preparedness Program at the Michigan Department of Community Health. She earned her Bachelor of Science degree from Michigan State University in Microbiology and Public Health. Her previous experience includes two years of public health microbiology and over 20 years of laboratory experience in private sector clinical and veterinary microbiology.

**Susan Shiflett, BS** is Laboratory Training Coordinator with the Office of Public Health Preparedness at the Michigan Department of Community Health (MDCH). She is responsible for training laboratorians in Michigan's regional laboratories that serve in the National Response Network. Ms. Shiflett earned her Bachelor's degree from Olivet College and has 23 years experience as a microbiologist at MDCH.

**Kevin Cavanagh, PhD, FACB**, is Division Administrator for Chemistry & Toxicology at the Michigan Department of Community Health (MDCH). He earned his PhD at the University of Windsor, is a board certified clinical chemist, and is a fellow in the National Academy of Clinical Biochemistry. Prior to joining MDCH, he was Technical Director for the Clinical Laboratory at Ingham Regional Medical Center in Lansing, MI and Associate Adjunct Professor in the Department of Pathology at Michigan State University.

**Erik Janus, MS** is Toxicologist for the Chemical Terrorism Unit within the Division of Environmental and Occupational Epidemiology at the Michigan Department of Community Health (MDCH). He holds a B.S. in biology from the University of Maryland and a M.S. in Environmental Science and Policy from Johns Hopkins University. Prior to joining MDCH, he was an Environmental Scientist and Risk Assessor with the U.S. Army Center for Health Promotion and Preventive Medicine where he helped design, perform and manage human health risk assessment projects for chemical weapon destruction facilities.

**David Dixon, Ph.D.**, is Bioterrorism Coordinator at the Michigan Department of Community Health Upper Peninsula Regional Laboratory Houghton, MI. Dr. Dixon earned his doctorate from Rutgers, the State University and University of Medicine and Dentistry of New Jersey, Graduate School of Biomedical Sciences, Piscataway, New Jersey. He is also Adjunct Professor, Department of Biological Sciences, Michigan Technological University, Houghton, MI where he teaches a general education course entitled "Perspectives on Inquiry."
